BO. OF TRADE APPEALS FOR UNEMPLOYMENT RELIEF

A very important meeting of the Blairmore Board of Trade was held at the Cosmopolitan hotel on Thursday night last, at which consideration was given to various projects suggested that might bring a portion of the unemployment relief fund to this district, where at the present time it is urgently needed.

Among the various works, proposed was mentioned the following: the building of a new link in the Red Trail highway, running along the north side of the C.P.R. line through the slide from Fank to the Bellevue flats, thus eliminating two very dangerous railway crossings; the completion of cribbing along the Old Man river through East Blairmore; the widening and straightening of two bridges east of Blairmore, and the erection of a federal building to house the postal, customs and other offices.

Resolutions covering the above were passed unanimously, c'p'es to be sent to the proper authorities at once.

The meeting was attended by representatives of the miner's union.

ALBERTA HAS TAKEN OVER ITS NATURAL RESOURCES

On October 1, 1930, the Province of Alberta took over from the Dominion of Canada the ownership and control of the natural resources of the province, which were granted this year by the Dominion Government to the prairie provinces. Since the purchase of the Hudson Bay Company possessions in Western Canada in 1870 by the Dominion, the administration of the natural resources—lands, mines, oil and gas deposits, water powers, etc.—has been in the hands of the Department of the Interior at Ottawa, and when the provinces of Saskatchewan and Alberta were constituted twenty-five years ago, the natural resources administration was retained by the Dominion, although the older provinces had control of their own resources. Ever since the formation of the province, there has been pressure upon the Dominion Parliament to obtain for the province the possession of its own resources in order to place it on a parity with the other provinces, and various propositions have been made to hand over the resources to Saskatchewan and Alberta on condition of a lessening of the annual subsidy. The final arrangement, however, continues the subsidy as originally made in 1905.

OPERATORS FIGHT AGAINST THE PIPING OF GAS

The Drumheller Board of Trade has received acknowledgments of resolutions opposing the piping of gas to Saskatchewan from Premiers Anderson and Brownlee, and the Saskatchewan minister of labor.

Coal operators in the Drumheller valley are deeply concerned about the proposed fuel competition in the prairie provinces and have solicited the aid of boards of trades and councils in an effort to combat any move in this direction.

It is claimed that the piping of gas to Saskatchewan cities will not only endanger capital investment in the Alberta lignite fields, but will also result in increased unemployment amongst coal miners.

A man giving the name of Dryntro Sumarak was found in possession of cash stolen from tills in the Alberta hotel and Royal Cafe, and was sentenced to six months in Lethbridge jail. Mrs. T. Stella was also found guilty of an infraction of the Liquor Act, and was taken to Prince Albert for a three-month term.

RAILWAY COAL SUBVENTION NOW A LIVE TOPIC

Mr. G. G. Coote, M.P., was a visitor in the Pass district yesterday, conferring with representatives of the coal companies and miners' unions on matters affecting the coal industry, and following steps already taken locally. We learn that in reply to a resolution wired to the federal government, requesting that a subvention rate be applied to Alberta coal moved to Winnipeg and Manitoba for railway use, and which was forwarded after a meeting last Friday of Rocky Mountain branch of the Institute of Mining and Metallurgy, the acting prime minister, Sir George Parley, replied:

"Your telegram October 3 received. Minister of mines has matter under review. Will telegraph you without delay."

W. A. Gordan, minister of mines, wired:

"You wire to acting prime minister respecting subvention Alberta and Eastern British Columbia coal for railway purposes now receiving careful consideration of government. Secretary of fuel board at present in Western Canada and will confer with you in next day or so concerning this subject."

It is expected that Mr. Neate, secretary of the Dominion Fuel Board, Ottawa, will meet the representatives of the mining companies this week end.

GETS COAL FROM WEST

Winnipeg, Oct. 2.—Ninety-five per cent of the coal shipped into Manitoba under subsidy displaces imported coal which formerly had been used. The reduction in price which the subvention makes possible is passed on to the consumer in 90 per cent of the sales.

These facts were brought out at an informal conference Wednesday of the Western Canada Fuel Association, when F. G. Neate, secretary of the Dominion Fuel Board, met with representatives of fuel dealers of the city. Mr. Neate explained the workings of the subvention under which coal shipments to Manitoba from Canadian fields are aided.

Shipments from Alberta under the subvention amounted to 75,000 tons from June 15 until September 30. Applications from Saskatchewan total 70,000 tons for the same period and it is estimated 200,000 or 250,000 tons of coal will come into Manitoba from the two western provinces before the end of next March.

While in Winnipeg Mr. Neate is conferring with railroad officials with the view to facilitating coal shipments from the west. He left Wednesday evening for the Souris field and will later make a trip to the Alberta coal fields.—Ferne Free Press.

INSTITUTE OF MANUAL TRAINING

Classes offered this year are: Manual Training, 1st year—use of tools, coping saw work and simple joinery.

Manual Training, 2nd year—advanced joining and useful articles.

The hours for these classes will be arranged later. Will all interested notify Rev. J. W. Smith. Classes are open to any boy who cares to come regularly. Fee \$1.00.

WORLD'S LONGEST TAXI ROUTE

The world's longest motor taxi route has recently been inaugurated in Africa. This service is known as the Trans-African Motor Safaris, and transports tourists from the Juba terminus of the Nile steamers to Cape Town, covering many of the most interesting sections of Africa en route. The entire trip takes eight weeks, including stops at the principal cities.

INDIGESTION

Banished by Kruschen

"I suffered for some years from a bad stomach. I used to feel very miserable after meals. The doctor advised me to take Epsom Salts, but it did me no good. I decided to try Kruschen and am now taking it, and have done for the past 12 months, and I am very glad to tell you that my stomach is now in perfect order. I feel as young in spirit as I was 20 years ago, thanks to Kruschen." (W.B.)

You know how badly an engine runs when it gets clogged up. It's the same with your body when your gastric or digestive juices fail to flow. What you need is a tonic—Nature's own tonic—Nature's six mineral salts.

You get all these six salts in Kruschen. The first effect of these salts is to promote the flow of the saliva and to awaken the appetite. The next action occurs in the stomach, where the digestive juices are encouraged to pour out and act upon the food. Again, in the intestinal tract, certain of these salts promote a further flow of these vital juices which deal with partly digested food and prepare it finally for absorption into the system.

WORLD HAPPENINGS

BRIEFLY TOLD

Bound for Germany to negotiate a settlement for accounts outstanding between that country and Canada, Hon. C. H. Cahap, Secretary of State, sailed recently from New York.

The London Daily Herald reported that King George recently issued to confer a title upon George Bernard Shaw in recognition of his literary eminence, but that Shaw had declined.

Prince Leopold, of Bavaria, field marshal of Germany and member of the German army in the east during the earlier stages of the war, is dead. He was 84 years old. Death was caused by pneumonia.

The first woman accountant in the province of Quebec who received into the membership of the Society of Chartered Accountants, when Miss Charlotte N. Howell was presented with her entrance certificate.

Crime in Great Britain has deteriorated so much that prisons are operated far below capacity and several have actually closed for lack of occupants, states Dr. Higgins, medical officer of the prison in Liverpool.

Order-in-council granting a loan of \$50,000 to the Manitoba Cattle Loan Association was passed by Manitoba's cabinet council. The association secured the money at five per cent. and will charge members seven per cent. for advances secured by lien notes on cattle purchased.

The parliament of New Zealand has approved a scheme to establish a national art museum to include a war memorial and a carillon. The citizens of Wellington have subscribed \$500,000, and the government has granted a subsidy of the same amount.

Frederick Edwin Smith, the first Earl of Birkenhead, statesman, 58 years old, died in London, England, Sept. 30, following a lengthy bronchial attack. He was at one time British Lord High Chancellor and Secretary of State for India. During the war he prosecuted Sir Roger Casement, Irish leader, who was hanged for his wartime activities.

Shipping in Sweden

Sweden Maintains Lead in Industry Among Scandinavian Countries

Sweden maintains its lead in the shipbuilding industry among the Scandinavian countries, according to the latest reports. At the Swedish yards 26 vessels with an aggregate tonnage of 127,000 gross tons were in the course of construction at the end of the first half-year. Denmark came second with 29 ships of 116,000 gross tons and Norway third with 33 ships of 40,000 gross tons. Of the ships at present being built in Sweden nine are steamers or motorships, 2,000 gross tons each, four motorships of 2,000 to 4,000 tons, four motorships of 5,000 to 6,000 tons, and six motorships of 8,000 to 10,000 tons.

Shortest Name For Horse

Racer In England Answers To Name

There's a race horse in England named "O." This establishes a practically unassailable record for brevity. One suspects that its owner, Mrs. G. L. Redmond, an American, saw an opportunity to attract a little attention by thus naming the nag, although with so many horses running around these days owners' heads just about run out of names.

In the United States, there is a rule that a period of 15 years must elapse before a name once used by a race horse can be used again. Over in England the only restrictions are that you cannot name your horse after the winner of one of the "classics" nor for a living person without obtaining permission.

The "classics" are five in number, although the term is frequently abused, the Thousand and Two Thousand Guineas, the Derby, Oaks and St. Leger. Horses winning these races retain their individual names in perpetuity.

(By Eva A. Tingey)

DELIGHTFUL WEAR

All Tingey models are created and sketched in Paris and the patterns are made in New York.

If small daughter is wanting some long-sleeved little dresses for the cooler days here is a charming model. If long sleeves are not in demand then some similar thin woolen or wool and cotton.

The original in scarlet kasha has yellow and blue blanket stitch (rocket will do) of the edges, sleeve joins, and cross trimmings for wee decorations here and there. Owing to its coloring and trim the model assumes a play peasant air. It is dainty and charming in its short sleeved form in cottons and washing silks.

This pattern may be obtained in sizes 2 to 6. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

SUNDAY SCHOOL LESSON

OCTOBER 12

MARY, THE MOTHER OF JESUS
—AN EXAMPLE OF MOTHERHOOD

Golden Text: "Mary kept all these sayings, pondering them in her heart." Luke 2:19.

Lesson: Luke 2:15-19; John 2:1-5; 19:25-27.

Devotional Reading: Psalm 67.

Explanations and Comments

The Mother of the Babe, Luke 2:15-19. The shepherds were amazed at the message which had come to them, but they were not incredulous, and they said, "Let us now go even unto Bethlehem, and see this thing that is come to pass which the Lord hath made known unto us." Read the whole beautiful story in Luke 2.

They went and found the Christ-child in the manger, and his mother Mary, and also Joseph. To Mary and Joseph the shepherds told what they had heard and all marvelled, but Mary retained their words in her heart, pondering them over and over.

The Mother of the Man, John 2:1-5. The third day after the feast with Nathaniel, John 1:47-51, He came to Cana of Galilee, Nathaniel's home town. At a house where Mary was well known, wedding festivities were being held, and when her Son appeared with His followers they were invited to attend. Toward the end of the festivities, which lasted several days, the supply of wine began to give out. Mary saw this, and turned to Jesus for help. "They have no more wine," she told Him. She made no request; she simply told Him of the situation.

The Mother of the Saviour, John 19:25-27.—Standing by the Cross of Christ were His mother, her sister Salome, Mary the wife of Clopas, and Mary Magdalene. (The two phrases, "His mother's sister, Mary the wife of Clopas," may be taken to refer to one woman, but in that case the two sisters were both called Mary, which is improbable.)

"O the weight of her affliction! Here, who won God's benediction, Here, who bore God's Holy One: O that speechless, ceaseless yearning, O those dim eyes never turning, From her wondrous, suffering Son!"

Jesus looked upon His mother and John (the disciple whom He loved)—John never mentions his own name in his Gospel, and said to His mother, "Woman, behold, thy Son!" and to John, "Behold, thy mother." Dr. F. B. Meyer suggests that Jesus would not call his "mother" identification with Himself might expose her to insult.

"It is that hour of excruciating agony he did not forget his mother's need. No other person's sorrow was eclipsed by His own. He was more centered in His grief, so as to ignore the weakness of others."—J. H. Jowett.

And from that hour John took the mother of Jesus into his own home.

Conduct Mass On Eiffel Tower

A religious mass was said at the top of the great Eiffel Tower recently, the first time since it was built more than 40 years ago. It took place in the lofty wind-swept little cage 4,000 feet above the earth. A small table was used as an altar and the music which accompanied the liturgy was the breeze. Special tribute was paid to M. Eiffel.

Made It Balance

The wife had been put on the budget plan. At the end of each month she and her husband would go over the accounts together. Every once in a while he would find an item, "L.O.K.", \$6.

Finally he said, "My dear, what is this—'L. O. K.'?"

"Lord Only Knows," she replied.

Mending clothes is accomplished in the same manner as patching an automobile tire, with a mending paste, which withstands washing, boiling and ironing.

A woman's tongue is her sword and she never allows it to rust.

Tea Biscuits unusually good

when made with Magic Baking Powder

If you bake at home send for the New Magic Cook Book. It will suggest many attractive dishes and save time for you.

Look for this mark on every tin. It is a guarantee that Magic Baking Powder does not contain alum or any harmful ingredients.

3 out of every 4 Canadian housewives who bake at home, use Magic Baking Powder because they find that Magic gives consistently better baking results.

Next time you bake biscuits, try Magic and see for yourself how it will help you with our baking.

Try this Recipe for Biscuits

4 cups flour
4 teaspoon Magic Baking Powder
1/2 teaspoon salt
Method—Mix together flour, magic baking powder and salt, then mix in shortening. Gradually add cold milk sufficient to make a soft dough as can be handled, using a knife to mix with. Flour contents of board generously, drop dough on it, pat or roll out very lightly to 1/2 inch thick. Cut out 2 1/2 to 3 inches in diameter in a hot oven. All ingredients should be cold. Handle as little and as lightly as possible and avoid working in more flour after milk has been added.

Huge New Glacier Found

Ice Field in British Columbia May Be Largest in World

Bringing back a story of having discovered an ice field that will rival any previously known, Christian Hasler and Ernest Feuz, Swiss guides of the Chateau Lake Louise and Banff Springs Hotel, arrived at Golden, B.C., by using train, motor and pack train.

With Major Longstaffe, of Vancouver, the guides reached the headwaters of the South Gate Littlewood and Toba Rivers, 160 miles north of Vancouver, in the Cascade range. The city state of the rivers convinced the explorers that the streams were glacial fed and so they penetrated the virgin country to the headwaters.

Huge snow fields and glaciers estimated at an area of 350 square miles, were seen and photographed for the first time. Ernest Feuz states that what they saw is only a part of the huge glacial field there.

Try To Decipher Document

Second Andreu Diary Causing Experts Much Difficulty

Experts examining the documents found with the remains of members of the Andreu balloon expedition in icy Hvitevoen are having difficulty with the second of the Andreu diaries, which they believe contains the record of the last days of the trip.

It had been exposed during the 33 years since the death of the three men and its contents are well preserved by time and the elements.

"If you haven't a doctor," said the tourist at the hamlet inn, "what happens when anyone is taken seriously ill?"

"Oh, they just die a natural death."

Another Wonder Of Science

New Device Makes Breath a Kind Of Third Hand

As we have ceased to wonder at the marvels of science, it is not surprising to learn that inventors have found new uses for the breath of the human body besides just breathing, or blowing on one's hands when cold, or on a cup of tea when hot—assuming one is not taking tea when "company" is present.

Dr. E. E. Free, New York, consulting engineer and scientist, comes forward with a device which can be attached to many things, and all one has to do is to blow into a sort of telephone mouthpiece, and it will do a job of work. It makes the breath a kind of third hand when a person is busy.

For instance, if you are playing the piano, simply blow into the mouthpiece and it will turn a page of music. If typing, you don't need to lift your hand to shift the carriage, simply blow and the carriage will slip back. Blow again and it will open the door of your auto, or open a window. In a plane your breath may manipulate the controls. In the same way you may operate heavy machinery. In fact, there is almost no limit to the possibilities which a little "blowing" may accomplish. Only this is a purposeful sort of blowing, not mere windbag stuff.

Believe It Or Not

Mountain peaks in the Cariboo range are growing taller, according to fur traders at Fairbanks, Alaska. As proof, one trapper points out that he has found trees on mountain sides with high water marks on them from lakes and streams now hundreds of feet below. A government geological party has been asked to investigate the growth of the peaks.

Saving For The People

Says Saskatchewan May Save Over \$900,000 In Connection With Freight Rates On Canned Goods

"People of Saskatchewan will save over \$900,000 this year on canned goods," states Hon. J. A. Merkle, Minister of Railways and Labor. The figure \$900,000 had been given to the department as the estimate of a large wholesale grocery firm with a warehouse in Regina, he said.

"The estimate will be very close to correct," Mr. Merkle said. The rates in effect would continue until the close of navigation on the great lakes and then the matter "will have to be fought out all over again," he added.

The government had received the support of the boards of trade of Saskatchewan, the Retail Merchants' Association, and the United Farmers of Canada in the fight, which had been won on July 14 and September 18. Mr. Merkle said in conclusion.

"The stalls," we are reminded, "do not applaud so heartily and unreservedly as the pit and gallery." No; they are the reserved seats.

In all Belgium there are only about 12,000 unemployed.

An Emergency Dressing

WHERE ARE YOUR CHILDREN

Where are they? On the streets amidst the rushing traffic—at the level crossing. They must go somewhere after school lets out at four o'clock, for all that pent-up energy is pounding to be let loose.

The day is coming, no doubt, when there will be legislation about youngsters running at will in this age of motor-driven vehicles. Then the reproach will be removed that the rate of preventable deaths from auto accidents has increased 50 per cent since 1927.

The Bureau of Statistics shows the figures of death to be 1,294 for the past year and despite all the warnings in the world the rate rises yearly. Not a day passes but we see that some dear child has come to an untimely end and the auto driver is exonerated from all blame—the fault being the child's own. That does not ease the aching heart of the parents, nor stem the grief in the little home circle caused by that vacant chair.

Mothers must find safe play-places for their offspring, and not leave it to the children themselves, nor to chance. Better turn your flower garden into a playground than have to send them off to the road itself. One thing all mothers can do, and perhaps this is better done by the fathers—and that is to instil the rules of the road into every last one of them. Safety First should be the daily pledge of the child as he leaves gaily for school.

Many good lessons are taught by the health programme of the Junior Red Cross in the branch of the school, amongst which there is being stressed more and more the need for preventing sickness, by keeping fit and well. Then comes another great lesson—the prevention of fire, and of accident, by taking all reasonable precautions. Your children will benefit by these practical talks during the Red Cross meetings, therefore all parents are urged to see to it that a Junior Branch is functioning in every school, no matter how remote. Write to Red Cross, 407 Civic Block, Edmonton, for free literature on Safety First.

Oh, fishing's a grand recreation.
You rise at a quarter till 5.
And languidly float
In an old, leaky boat,
Till you wonder if you're still alive.

And then, what a gorgeous sensation,
A bite! And you're suddenly gay,
It feels like a whale;
What a wonderful tale
You can tell after it gets away.

FARMERS WANT ALBERTA LIVESTOCK

Many farmers want feeding and breeding Cattle. Livestock is one of the best means by which grain can be marketed. Help to preserve this market by keeping unfinished cattle and breeding stock on Alberta farms.

WHAT HAVE YOU FOR SALE?

If you have cattle for sale, send a list giving full particulars of number, breed, age, condition, etc., to—

Livestock Branch—Alberta Department of Agriculture
PARLIAMENT BUILDINGS, EDMONTON

DO YOU WISH TO BUY?

Those wishing to buy cattle should write to the above Branch, giving full particulars of their requirements.

Hon. George Hoadley,
Minister of Agriculture

"AMING OF SHREW"
FAST MOVING COMEDY

When a beautiful girl counters a legitimate proposal of marriage tendered by a handsome young man with such a statement as: "I'll see thee hanged," things are bound to happen. And happen they do in "Taming of the Shrew," which comes to the Cole's theatre as the feature attraction next Wednesday and Thursday and likewise brings Mary Pickford and Douglas Fairbanks to the screen together for the first time.

From the opening shot to the final 'adout, "Taming of the Shrew" is but one long, glorious laugh. From the first moment, gay but stormy Petruchio (Douglas Fairbanks) lays eyes upon his bride-to-be, the stormy, tempestuous Katherine (Mary Pickford), there ensues a battle of wits and wiles.

In this screen story of the Bard's immortal comedy, brought to the screen for the first time in the history of motion pictures, every bit of essential dialogue, comedy and striking situation has been left intact throughout production.

Critics who have seen the "Taming of the Shrew" find it as an achievement in sound-recording. Among the featured players who support the two stars in the comedy are Joseph Cawthorn, Clyde Cook, Dorothy Jordan, Geoffrey Wardwell and Edwin Maxwell.

SOME WEDDING CUSTOMS

Why does a bride wear a veil? Why is rice thrown over a bride? Why do they leave the church? Why is the wedding ring put on the fourth finger of the left hand? Why is an old shoe thrown after a married couple as they drive to the station? Why have a wedding cake? The questions are asked and answered in London Answers.

The veil is but a continuance of the ancient eastern rule that no man can see his wife's face until after the ceremony.

The throwing of rice is another eastern custom. Rice is the staple food in the east, and throwing it symbolized a wish for plenty.

The choice of the fourth finger of the left hand for the ring is an old custom of pagan Rome. It was believed that a nerve went direct from that finger to the heart.

Shoe throwing is another adopted eastern custom. The oriental bride's father gave an old shoe to the bridegroom as a symbol that he surrendered to him his parental right of beating his daughter.

The wedding cake is Roman in origin. A cake made of flour, salt and water was always eaten by the Roman couples in the presence of the priest. It formed part of the marriage rites.

Behind the question: "Who giveth this woman to be married to this man?" was the accepted belief that a woman was a "chattel," life furniture.

A bachelor is one who thinks he is either too young or too old to get married.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services, Sunday, October 12th, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7.30 p.m.—PUBLIC WORSHIP

The Pastor will take for his text, 2nd verse of Ps. 125. "As the mountains are round about Jerusalem, so the Lord is round about his people from henceforth even for ever."

Tuesday, October 14, Rev. John Garden, B.A., B.D., invites you all to spend "A Night in Bonnie Scotland" with him. Several of our talented local artists will assist in the evening's entertainment. It's going to be a bonnie night, so will ye no gang? Admission 50c and 25c. The proceeds will help us attain our objective "Self-support in 1930."

SALVATION ARMY, COLEMAN

Sunday, 11 a.m.—Holiness meeting; 2 p.m., Directory class for the young people; 2.30 p.m., Company meeting; 7 p.m., Salvation meeting.

TWO YEARS BEFORE
WORLD CONDITIONS STABILIZE

Wilbur Glenn Voliva, overseer of Zion City and the man who succeeded John Alexander Dwyer, was an interested visitor in Western Canada recently and brought with him the statement that he is the head of a city in which there is absolutely no unemployment.

"Everybody has something to do at home," he said, when interviewed on a Canadian National train. "We limit our population with that end in view and I firmly believe every country should do the same, that is, limit immigration to its capacity for assimilation."

Voliva said the death rate at Zion City is the lowest on the American continent and the birth rate is the highest. Strict quarantine is exercised against infectious diseases and they don't allow the sale of tobacco.

World conditions are beginning to stabilize themselves, Voliva believed. "The change will be very gradual, but I believe it has started. I do believe, however, that it will be two years before we return to our full normal conditions," he stated.

WHAT IS A FRIEND

The sunshine of calamity.
The essence of pure devotion.
The ripe fruit of acquaintanceship.
One who understands our silence.
Friendship, one soul in two bodies.
A star of hope in the cloud of adversity.

A volume of sympathy bound in cloth.

A diamond in the ring of acquaintances.

A safe in which one can trust anything.

Friendship is the personification of love and help.

The jewel which shines the brightest in the darkness.

One who considers my needs before my deservings.

The link in life's chain which bears the greatest strain.

The first person who comes in when the whole world has gone out.

One who loves the truth and you, and will tell the truth in spite of you.

The triple alliance of the three great powers—love, sympathy and help.

There are two things a woman can never get off right: a funny story and a street car.

COBBIN HAPPENINGS

(By Our Own Correspondent)

Several of the local young people attended the dance at Michel on Friday night last.

Mrs. A. Cartledge underwent a successful operation for appendicitis in the Fernie hospital this week.

Mr. and Mrs. A. Sheppard, accompanied by Mrs. R. E. Elliott, were Coleman visitors on Wednesday afternoon of last week.

Mr. and Mrs. T. J. Barnes, of No. 6 mine, gave a jolly birthday party in honor of their daughter, Bertha Oakley, on Saturday night last.

We are very glad to say that Mrs. W. Almond, who has been confined to her home through illness for the past week, is gradually recovering.

The Pythian Sisters were joint hostesses to a number of invited guests to a very sumptuous banquet held in the club hall on Thursday evening last. After the banquet a dance, for which they had engaged Bill Fraser's orchestra from Blairmore, was enjoyed by all who cared to trip the light fantastic.

Victor Gregor, the mine electrician, had the misfortune to meet with a serious accident on Thursday afternoon last. A telephone pole, which he had ascended to repair some wiring, gave way and he crashed to the ground about twenty feet below. First aid was rendered immediately by nearby workers. Mr. Gregor was rushed to the local hospital, where upon examination it was found that he was suffering from severe shock and had several broken bones. On Friday morning he was taken to Fernie hospital, where he is now doing as well as can be expected.

FERNIE LADIES WIN

Thirteen ladies from the Blairmore Golf Club journeyed to Fernie last Saturday to play a friendly competition with the Fernie Club. The day was most delightful and the course in the best shape possible. Singles were played in the morning, after which a most appetizing lunch was served in the Club House to about fifty ladies.

In the afternoon two-ball foursomes were played and the visiting ladies were taken by members of the club up to tea in the Elks' Hall which was being given by the Major Robert J. Black Chapter I.O.O.F. At the tea a beautiful cake was raffled and one of the Blairmore ladies won it. The Blairmore ladies expressed their delight with the course and the splendid entertainment given them by the Fernie ladies.

The Fernie ladies gave them a severe trimming in both the singles and foursomes, as only one or two Blairmore ladies won. A return game will be played in Blairmore in the near future.—Fernie Press.

ESSAY ON EDITORS

The following is an essay written by a school boy in northern Ontario which deals with the question of newspapers and their editors. This reprint however is with regard to editors and this is what he says:

"I don't know how newspapers got into the world and I don't think God does, for he ain't got nothing to say about these in the bible. I think the editor is the missing link we read of that stayed in business until after the flood and came out and wrote the whole thing up, and has been kept busy ever since. If the editor makes a mistake folks say he ought to be hung, but if the doctor makes a mistake he buries it and the people don't say anything as they can't read Latin. When the editor makes a mistake there is a big law suit and swearing and a big fuss; but if the doctor makes one there is a funeral with flowers and perfect silence. A doctor can use a word a yard long without him or anyone else knowing what it means, but if the editor uses one he has to spell it. Any college can make doctors to order but editors have to be born—and born real early too!"

THE PEDESTRIAN'S

RIGHTS IN 1930

Sir, if the pedestrian's rights get to be any fewer, it will not be long before scenes like the following are enacted in our court rooms:

Prosecutor: Prisoner to the bar! What's your name?

Prisoner: Angus Tweedle.

Prosecutor: Angus, you are charged with violating the walking ordinance, the statute governing the operation of shoes and the amendment prohibiting hurrying home to dinner. Guilty or not guilty?

Prisoner: Well, I think—

Magistrate (rapping with gavel): No thinking in this court! Are you guilty or not guilty, as charged?

Prisoner: Not guilty, yerrenor.

Magistrate: What is this man accused of?

Prosecutor: It is alleged that on the afternoon of May 17, being of sound mind, he did then and there defy the majesty of the law, the rights of automobile owners and the dignity of the police by stepping from the sidewalk and trying to get across the street without waiting for the signal.

Magistrate (sternly): A desperate character indeed! Did he do any damage?

Prosecutor: He caused a fire department chief's car and a city ambulance to slow down to sixty-five miles an hour.

Magistrate: It's getting so these pedestrians have no regard for the rights of motorists. Call the first witness.

"Daredevil" McWinch (an ambulance driver and first witness): Yerrenor, I was driving down the street when this fellow, without the slightest warning, stepped from the curb.

Magistrate: How fast were you going?

McWinch: I was only doing eighty.

Magistrate: Why the conservatism?

McWinch: Well, the patient was unconscious and it seemed a waste of time to try to frighten him.

Magistrate: Did the prisoner hit your car?

McWinch: He dented the rear fender with his left hip.

Prosecutor: Did he stop to ascertain the damage?

McWinch: No, Sir.

Magistrate: Ah! A hit-and-run walker!

The curtain will be lowered to denote the examination of fourteen other witnesses. At the rise the prisoner is on the stand.

Prosecutor: Now, then, why did you cross the street?—And don't pull that joke about the chicken.

Prisoner: I was late for dinner, and the wife always makes a squawk when she has to keep things warm.

Prosecutor: Don't you know that pedestrians have no right to frighten motorists in that way?

Prisoner: Yes, sir. I tried to get across without doing any harm, sir, but miscalculated my speed. I'm not the walker I once was, sir.

Magistrate (sharply): You're the sort of man who scares private chauffeurs, upsets the nerves of taxicab drivers and makes life miserable for motor truck operators. Let me see your walking license.

Prisoner (hesitatingly): It's been revoked, yerrenor.

Magistrate: What for?

Prisoner: Two months ago my hat blew off and I chased it into the street when the red light was against me.

Magistrate (very indignantly): I sentence you to life at hard labor. We've got to make an example of these reckless walkers!—Western Motordom.

A Russian was being led to execution by a squad of Bolshevik soldiers one rainy morning.

"What brutes you Bolsheviks are," grumbled the doomed one. "To march me through a rain like this."

"How about us?" retorted one of the squad. "We have to march back."

A new deal for today's dollar!

NASH

Announces

3 new EIGHTS and a new SIX

NEVER was such motor car quality offered at prices so sensationally low. The literally startling difference becomes at once apparent when you contrast the prices of the new and finer Nash series, with prices of corresponding models a year ago.

Its low non-productive overhead, its elimination of borrowed capital, and remarkably foresighted manufacturing alone enable Nash to offer so much for so little.

The unique example in value-giving thus provided

the industry was planned last November. At that time, C. W. Nash and the strong group of executives surrounding him, clearly foresaw present conditions. They at once began to design cars affording value so great, so unmistakable, as to overcome all buying reluctance.

The result is instantly apparent. Even casual inspection of the four new Nash cars establishes the fact that *nothing* even remotely approaching them in downright dollar value has ever been available in their respective price fields.

SENSATIONALLY PRICED!

STUDY THESE SENSATIONAL PRICES!

Compare what is probably the most remarkable achievement of Nash in greater value-giving—the New Six—with the Single Six it succeeds. The New Six offers a multitude of superiorities—at prices which range from \$205 to \$180 below the prices of the Single Six.

Body Style	The New Six W. B. 114 1/2"	Last Year's Six W. B. 114 1/2"	Price Difference
Sedan (4-door)	\$1000	\$1225	—\$205
Coupe	\$1025	\$1240	—\$215
Coupe (rumble seat)	\$1060	\$1260	—\$200
Sedan (2-door)	\$1025	\$1205	—\$180

Compare the New Eight-70 with its two additional cylinders, its longer wheelbase, its larger, more luxurious body, with the size-70 car it replaces. Then consider the remarkable fact that there is actually a basic price differential in favor of the new Eight!

Body Style	The New Eight-70 W. B. 116 1/2"	Last Year's Six W. B. 114 1/2"	Price Difference
Sedan (4-door)	\$1280	\$1295	—\$15
Coupe	\$1215	\$1240	+ \$5
Coupe (rumble seat)	\$1255	\$1260	—\$5
Special Sedan (4-door)	\$1230		

(Above Prices Are Canadian List, F. O. B. Factory and Include All Taxes)

Compare the New Twin-Ignition Eight-80 with the 6-cylinder car it replaces. The Eight-80 is larger, longer. Design, appointments, upholstery are finer—prices are radically lower.

Body Style	The New Eight-80 Twin Ignition W. B. 117"	Last Year's Twin Ignition Six W. B. 114 1/2"	Price Difference
Sedan (4-door)	\$1770	\$1940	—\$170
Coupe	\$1700	\$1840	—\$140
Coupe (rumble seat)	\$1755	\$1910	—\$155
Town Sedan (4-door)	\$1885		

Compare the New Twin-Ignition Eight-90 Series, now with a 115 H. P. Engine, with the last year's 100 H. P. Eight. Body appointments are finer, upholstery more luxurious, and prices are far lower!

Body Style	The New Eight-90 Twin Ignition W. B. 117 1/2"	Last Year's Twin Ignition Eight W. B. 114 1/2"	Price Difference
Sedan (4-door)	\$2150	\$2480	—\$330
Cabriolet	\$2335	\$2505	—\$170
Coupe	\$2335	\$2550	—\$215
Coupe (rumble seat)	\$2405	\$2535	—\$130
Sedan (7-pass.)	\$2665	\$2850	—\$185
Limousine (7-pass.)	\$2810	\$2930	—\$120
Ambassador	\$2525	\$2645	—\$120
Victoria	\$2435	\$2555	—\$120

MODERNIZING ALPHABET

Mr. Gordon Phillips, who writes light verse in the Gilbertian manner under the pen name of "Lucio," has found inspiration for his muse in a news item announcing that the old-fashioned rhymed alphabet books are to be superseded in certain American schools by more up-to-date guides to literacy. "In future," so ran the dispatch, "A, instead of standing for acorn or apple pie, will stand for adding machines and axes, and other letters will have similarly practical significance." Always ready, as the true British gentleman should be, to assist an American in distress, Mr. Phillips therefore offers this suggestion of his own:

Come here, little fathead, and sit down by me,
And let us run over your new A B C.

Whereby we impress on the immature mind
Some facts of a modern, more practical kind.

A is for Axle and Adding Machine;

B is for Bankrupt, who hasn't a Bean;

C is for Carton, Crank, Car, Carburator,

D's for Debenture or Dollar or Debtor;

E's for Exchequer and office Equipment;

F is the Freight on a Foreigner's shipment;

G is for Gasoline, Gadgets and Gear,

H is the Hooter or Horn that we Hear;

I is for Inquest (as everyone knows);

J is the Joy-ride from which it arose;

K is for Kinema, Keyboard and Keel;

L is for Limousine, wealth at the wheel;

M is for Money (and never you doubt it!);

N is the Nothing you count for without it;

O's Overdrawn, an embarrassing state,

P is the Payment that Puts the

thing straight;

Q is for Quota and Quorum and Quaid—

R is for Ram sort of terms for a kid;

S is the Screen that is Silent and mute;

T is the Talkies now hot in pursuit;

U is for Usury, not a nice word,

V's Value received would perhaps be preferred;

W stands for this World and its Ways;

X, I imagine, is merely X-rays;

Y is for Yen, which the Japanese chink,

And Z is for Zeppelin, Zion and Zinc.

The ground is thus covered from A unto Zed,

So get all these facts in your silly young head;

And when you have finished you should be a more

Inquisitive nuisance than ever before.

THE NEXT OLYMPIAD

Thirty-five nations already have signified their intention to participate in the games of the Xth Olympiad to be celebrated at Los Angeles, California, July 30 to August 14, 1932, according to an announcement by the organizing committee.

These assurances have come in response to the committee's invitations sent out last February, to national Olympic committees, inviting their ratifications to participate in the coming world event. At the same time the United States government sent from Washington, D.C., communications to the governments of all Olympic countries, calling attention to the official invitations.

World-wide interest in the Xth Olympic games was greatly stimulated by the report of the organizing committee, given at the recent Olympic congress in Berlin. This report showed that nearly all facilities are already available for the celebration of the games, consisting of 135 distinct events, taking place during 16

days and nights.

The organizing committee wishes to make known to the public its great appreciation of the early and enthusiastic acceptance of its invitations by so many nations. This early response, almost two years in advance of the games, clearly indicates the international interest in the Olympic movement and the committee is sending a special communique of appreciation to each national Olympic committee.

Journalists and sportsmen from many countries are coming to Los Angeles in increasing numbers each month, for the purpose of observing the extensive preparations being made for the games and securing important data for the various Olympic organizations in their respective countries.

Girl I: "Edwin is certainly a pest. He never seems to know when to stop."

Girl II: "That's strange. I was out riding with him last night and he found a dandy place."

PARLIAMENT TO OPEN ON MONDAY, SEPTEMBER 8

Ottawa, Ont. — Parliament will open on Monday, September 8. Official announcement of the date of the opening was made by Sir George Perley, acting prime minister and war-time Canadian high commissioner in London, England.

The hour set for the opening, Sir George Perley stated, is 12 o'clock noon, although the more formal procedure will not take place until 5 o'clock in the afternoon. This arrangement will permit the House of Commons to get right down to business on the first day of the special session to deal with unemployment relief, and doubtless take some action on the tariff. This procedure, in view of the nature of the coming session, will be somewhat different from the usual opening.

Members of parliament will assemble in the House of Commons at the noon hour, with Arthur Beauchamp, clerk of the House, presiding. After assembling, the members will proceed to the senate chamber, where the deputy governor-general will be present, and upon the direction of His Excellency will return to the Commons to elect a Speaker. Adjournment will then be made until 4 o'clock, when, with the pomp and ceremony of tradition attending the opening of parliament, Viscount Willingdon will arrive from Rideau Hall and proceed to the Upper Chamber. His Excellency the Governor-General will read the Speech from the Throne.

The address in reply to the Speech from the Throne will then be moved by the mover and seconder. Former Premier Mackenzie King will then speak, followed by Premier R. B. Bennett in his initial address on the floor of the House of Commons. In all probability, Robert Gardiner, U.F.A. leader, will continue the discussion and the debate will have the right-of-way until its termination.

Usually, the first session of a new parliament opens on a Wednesday and little practical business is performed that week. The opening is marked with a series of social functions at the beginning of each session; but this year, in keeping with the businesslike atmosphere of the session, there will be no state dinner nor drawing-room reception. All members-elect are expected to be in Ottawa early Monday morning. Notices are being sent out by the clerk of the House asking their attendance in the Parliament Buildings after 9:30 o'clock on Monday morning, so that they may be sworn in. In view of the problems to be discussed, a full attendance of members of every group in the House is anticipated.

Wins Marathon Swim

Marvin Nelson, of Iowa, Annexes \$10,000 Prize in Big Event

Toronto, Ont. — Marvin Nelson, a bronzed young Hercules, who had come up from Fort Dodge, Iowa, won \$10,000 and the professional swimming championship of the world. He swam the 15-mile course of the Canadian National Exhibition in seven hours, 43 minutes, 36 1/5 seconds, a new world's record, and climbed up on the finishing float still fresh and strong. Last year he was barred from the prize money when he collapsed, unconscious, with the end only 50 yards away.

In a race which saw the collapse of George Young, then swimming fourth, Frank Pritchard, who was in the lead; Mandel Burditt, Eli Radakovich, and many other famous swimmers, Nelson persisted to overhaul one after another of the leaders, finally passing Lord Sponner at the beginning of the last lap. In the next four miles he overcame Sponner's lead of 250 yards to finish 500 yards ahead of him.

Nelson's gesture of victory when he lifted both hands out of the water brought immediate response from the thousands massed along the lake-front. He was a smiling man of few words when welcomed by the mayor of Toronto and a battery of photographers. "All right, that's fine. I'm satisfied," summed up his feelings. He strolled about the float and the photographers' barge without embarrassment or weariness, and was the first to receive Sponner, when the Port Colborne youth finished seven minutes after himself.

Honey production in Canada totals more than 15,000 tons, valued at more than \$3,400,000.

W. N. U. 1853

Has Faith In Canada

Premier Brownlee In Optimistic Over Future Of Dominion

Simcoe, Ont. — Speaking before the Simcoe Rotary Club, Hon. John E. Brownlee, premier of Alberta, and distinguished son of Norfolk, commented on the subject of immigration and unemployment in the province of Alberta.

Referring to the continued influx of immigrants to the West, he said: "They have been coming into the Peace River country at a great rate in the last couple of years. You cannot continue to pour people into any country like that without experiencing a set back. The country again cannot assimilate them and it becomes a serious problem when an era of low prices and falling markets sets in. Many easterners have been unable to understand why Alberta wanted the ban on immigration legislation. The present situation affords the answer."

At the same time Premier Brownlee took occasion to refute newspaper reports of Red activities in Alberta. "You will find more Reds in the city of Toronto or the city of Hamilton in one day," he declared, "than you would find in our province in a year." He defended the policy of the western wheat pool in connection with marketing the wheat crop, asserting that the pool had always been exporting its just share. "It is just one of those cycles," he believed, "when there is an over production in the basic commodities of life and the country suffers a temporary depression."

Premier Brownlee declared himself to be an optimist about the future. "It may be one month, two months, a year, or maybe more before conditions right themselves," but of the future of this country he can have no doubt.

Proposed Changes In Homesteading Policies

Will Be Presented To Government By Saskatchewan Commission

Saskatoon, Sask. — Findings of the Royal Saskatchewan Commission on Immigration and Settlement which will be presented to the government will, if acted upon, involve radical changes in the homesteading policies of the past. Dr. W. W. Swanson, chairman of the commission, announced.

One of the most interesting and important researches of the commission, he stated, dealt with vacant lands. Since the return of the natural resources to the provinces it became imperative to devise a program based upon sound policy for the development of these lands and this the commission attempted to do. Dr. Swanson would not indicate the nature of the suggestions. "Researches were made by the commission into the present condition of agriculture and its future possibilities with a view to relating these to immigration and settlement."

Many other problems, rural and urban, had been studied so that the entire report comprises a comprehensive and detailed analysis of the basic problems affecting immigration, colonization and employment.

A Great Discovery

British Delegate To Medical Convention Stresses Value Of Insulin

Winnipeg, Man. — Insulin, discovery of a Canadian research expert, is one of the greatest advances in medical science, according to Sir William Taylor, K.B.E., C.B., of Dublin, Ireland, who is here attending the British Medical Association convention. Diabetes mellitus, which had always proved fatal, particularly in early life, could now be controlled. Insulin had altered the whole treatment of the disease. "With the aid of insulin, I have been able to perform operations which I could not have dreamed of without it," declared Sir William.

Referring to birth control, Sir William expressed himself in favor of it insofar as it tended to raise health standard. "It is a good deal better to exercise control than to allow a super-abundance of children to be brought into the world who cannot be properly educated, or properly fed," he commented.

Air Mail From Iceland

First Delivery Made To Halifax By

Halifax, N.S. — The first air mail from Iceland and Greenland to Canada arrived here August 25, in the custody of Captain Wolfgang von Gronau and his companions aboard the flying boat D-1422, which flew to Halifax from Greenport, N.S., after a flight from Germany to Iceland, Greenland and Labrador. Captain Gronau delivered the mail to D. A. King, postmaster here.

INITIAL PAYMENT OF POOL IS SET AT SIXTY CENTS

Winnipeg, Man. — Days of anxious waiting are over and now the 154,000 western farmers, members of the prairie wheat pools, know what the initial payment is to be on the 1930 crop.

It will be the lowest in the seven-year history of the pools: 60 cents a bushel on wheat; oats, No. 2 C.W., 30 cents; barley, No. 3 C.W., 35 cents; rye, No. 2 C.W., 35 cents; and flax, No. 1 N.W., \$1.25. The 60 cent payment on wheat will be made on the basis of No. 1 Northern Grade at Fort William.

Along with the official announcement from A. J. McPhail, chairman of the Canadian Co-operative Wheat Producers Limited, the central selling agency of the pools, and from Premier John Bracken, of Manitoba, came a plea to the creditors of the western agriculturalists to be lenient. The same plea was made in Regina, at a conference of wheat growers, business men, and members of the Saskatchewan Government, under the leadership of Premier J. T. M. Anderson.

Both Mr. McPhail and Mr. Bracken drew attention to the serious situation facing the prairie farmers, who, for the second year in succession, in face of depressed world grain values, are now harvesting a crop below the average in yield.

"The government of Manitoba," said Premier Bracken, "believes that in the present emergency industrial and financial interests should refrain from unduly pressing collections from farmer debtors. It is in the interests of all Canada that our farmers should not be embarrassed by too energetic attempts by competing creditors to collect larger payments than farmers are able to pay." Sale of the prairie crops "under pressure" would depress values, with serious consequences to the agricultural and business interests of the Dominion, he said.

Mr. McPhail declared: "As the welfare of our prairie provinces is almost entirely dependent on the solvency of our agricultural industry, we hope and feel confident that all interests concerned in the welfare of western Canada will co-operate in minimizing the difficulties our farmers are facing at the present time."

The chairman of the central selling agency stated that a further payment which would involve an increase in the initial payment, "will be made at as early a date as market and financial conditions will permit."

Since the formation of the wheat pools in the west, with the exception of one year, the initial payment has always been \$1 a bushel. In 1928, values were depressed, the initial payment was 85 cents a bushel.

NEW CABINET MINISTER

Dr. Murray MacLaren, new minister of pensions and national health in the Bennett cabinet, who is a native of New Brunswick, with a very distinguished career.

Government Steamer Nearing Winter Harbor

"Boethic" Battling Ice and Fog In Arctic Sea

Ottawa, Ont. — After a continuous battle with ice and fog, the Canadian Government Arctic patrol steamer "Boethic" is approaching winter harbor on Melville Island. It was announced by officials of the North West Territories branch of the Department of the Interior.

The ship is carrying the 1930 Arctic expedition which will spend some time among the Canadian Archipelago. Its immediate purpose is to re-provision the cache on Melville Island established there in 1908 by Capt. J. E. Bernier, of the C.G.S. Arctic and which has played a most important part in the exploration and the policing of Canada's northern empire.

Preserving Wild Life

Canada Ahead Of States Especially In Regard To Buffalo

Toronto, Ont. — That Canada has gone much further than the United States in some aspects of wild life preservation, particularly the conservation of buffalo, was the statement made by Colonel Paul G. Redington, chief of the U.S. Bureau of Biological Survey, who addressed the 24th annual convention at the Royal York Hotel, of the International Association of Game Fish and Conservation Commissioners.

Device Proved Successful

Detroit, Mich. — A parachute device to bring aeroplanes safely to the ground in emergency cases, operated successfully in a test conducted here. The apparatus, carried in a tube beneath the fuselage, lowered a plane from a height of 2,000 feet over Grosse Ile airport.

Burns' Descendant Sings Poet's Ballads

Emile Gray, a brilliant young soprano of Toronto, who will be at the Highgate Gaiety at Banff, and will sing in the ballad opera, "The Ayrshire Ploughman", incorporating songs of Robert Burns, has the additional distinction of belonging to the Burns family, being a great-granddaughter of James Burns, first cousin to Robert Burns.

James Burns went to Ireland to be bailiff on the estate of Sir Robert Gore. Here he married Mary Young, and they had nine daughters, of whom Jane Burns was one. Jane came to Canada, where she married, and her youngest daughter Mary was the grandmother of Emile Gray.

It is interesting to note the strong physical resemblance as evidenced by comparison of photographs of Miss Gray and Robert Burns.

Climbers Conquer

Mount Robson

Members Of Mount Everest Expedition Reach Summit

Mount Robson, B.C. — Mount Robson, after many attempts has been climbed for the first time this season. A party, composed of N. E. Odell and C. G. Crawford, of London, England, both members of the Mount Everest expedition, and Terrie Moore, of Haddonfield, N.Y., successfully gained the summit.

It was in a lone attempt to climb Mount Robson, 12,972 feet high, the highest peak in the Canadian Rockies, that Newman D. Waff, of Orange, N.J., lost his life recently.

Still Holding By-Elections

No Immediate Possibility Of Law Being Amended

Ottawa, Ont. — Political observers here see no immediate possibility of amending the elections law to obviate the necessity of cabinet ministers going before their electors at by-elections when they assume office.

Two or three years ago a resolution was read in the House of Commons recommending that by-elections for cabinet ministers be dispensed with. The government of the day promised to give consideration to it and no vote was taken. Ontario is one province that has eliminated by-elections for its ministers.

TARIFF ACTION TO PROTECT THE FRUIT GROWERS

Ottawa, Ont. — The dumping of fruits and vegetables from the United States into the markets of Canada, which has been the cause of strenuous protest for some time past, has resulted in definite action by the government. Hon. E. B. Ryckman, Minister of National Revenue, has announced the fixing of values for duty purposes on ten fruits and vegetables which are among the common food commodities on the Canadian table. The fixing of value for duty purposes means that such fruits and vegetables entering Canada must pay a duty on the basis of the valuation determined by the minister.

Provisions of the Customs Act permit the government to fix valuation on commodities entering Canada. If they consider such action desirable. In the past, on the floor of the House of Commons, as well as outside parliament, the claim has been made by representatives of the Canadian fruit and vegetable growers that the "cream of the Canadian market" went to United States producers because they were in a position to bring forward their product earlier than it would be produced in Canada. There was also the claim that when the United States market was satisfied, fruit which would otherwise have glutted that market, was dumped into Canada at a much lower price than prevailed either in United States or Canada. This, it was claimed, constituted unfair competition which the Canadian producer could not be expected to meet.

Imports of fruits and vegetables from United States have grown to considerable proportions of late years. The Canadian market has proven attractive to the producers in United States who could get their product into Canada before the home-grown fruits and vegetables were available. The effect of the action will be to ensure that the United States' fruits and vegetables covered pay duty on what is considered a fair valuation. Comparison of the values fixed on fruits and vegetables with those prevailing heretofore is practically impossible because of variations which have existed in different parts of Canada. Applies, for instance, might enter Canada at a lower value for duty purposes in the maritime provinces than in the prairie provinces. Canada depends on the invoice value of shipment. The agitation for application of the dumping duties on fruits and vegetables naturally emanated from those sections of "Canada" where these commodities are largely produced. The fruits and vegetables upon which a valuation has been fixed together with their values for duty purposes when entering Canada from United States are as follows: Apples, six cents per pound; cabbage, five cents per pound; cantaloupes, thirteen cents per pound; celery, ten cents per pound; onions, four cents per pound; peaches, twelve cents per pound; pears, nine cents per pound; plums and prunes, eight cents per pound; tomatoes, ten cents per pound.

ROAD TO LONG LIFE IS SHOW BY MEDICAL MEN

Winnipeg, Man. — "Long life and good health!" Out of the bowl of the world's medical knowledge, a toast was drunk by delegates to the 86th annual meeting of the British Medical Association. Two of Britain's most noted physicians took the platform before hundreds of their fellow doctors; one to point the road to a long life, and the other to say that good health comes unbeckoned.

Dr. Robert Hutchison, F.R.C.P., London's most noted iconoclast when health fads are the delites, shattered images right lustily. Joyfully, but firmly, the British expert barked back to the good old days of mud-pies when, he said, children were probably healthier and happier than the oft-weighted, pampered, dieted, psycho-imaginary children of today. He laughed at caloric-counters and vitamin-victims, and held up as ideal the easy-going individual who merely means to health.

Inability of the state to permit birth control in England was deplored by Sir James Purves-Stewart, K.C.M.B., F.R.C.P., in outlining the ways to a lengthy life. He considered heredity by far the most important factor in producing longevity, but regretted that lack of birth control permitted reproduction of far from perfect specimens of the human species, closing one doorway to longer living. The other two routes, he thought, were by the aid of the public hospital system and the family doctor.

Highlight of the day-time sessions was the expression of opinion on the use of radium in treatment of cancer. Dr. Malcolm Donaldson, of London, forecast the entire abolition of surgical extirpation treatment for cancer, due to radium development. Concurring, Prof. W. W. Chipman, Montreal, believed that radium has already proved superior to surgical treatment of cancer. But London's Dr. Sidney Forsdyke, disagreed. He expressed confidence in the future of radium, but considered the rare element "a long way from being the only truly radical cancer cure."

Three ways of attaining to long life are open to the individual. According to Sir James Purves-Stewart, first, he suggested, by means of the heredity factor — but the way is barred at present by opposition to birth control. The other two means are the public hospital system, staffed by expert physicians and surgeons, and the family doctor, named as the mainstay of the people's health.

Least religious beliefs be offended, Sir James restricted his discussion on the birth control angle of his talk on "Long life as a business proposition." But he stated: "It is an appalling thought that these good people, while they recognize the desirability of breeding healthy cattle, see no harm in permitting the indiscriminate breeding of insane and diseased human beings."

By far the most important factor in producing long life, believed the speaker, is heredity. "Long life runs in families." He mentioned, however, that nearly all hereditary diseases of life are preventable, with the exception of hereditary diseases and cancers. Listed as preventable short-life causes were errors of diet, habitual over-exhaustion or under-exhaust, bacterial infections and other poisons. "Passing over hereditary diseases, which he had mentioned were barred from being preventable by state laws, Sir James referred to cancer, the only really non-preventable short-life cause. "I venture to prophesy that, as surely as day follows night, the cause of cancer will be found," he said, "when found, will be prevented in future."

Noted Actor Dead

Lon Chaney Succumbs To Pneumonia After Gallant Fight For Life

Los Angeles — Lon Chaney, noted character actor of motion pictures, died here, August 26.

Lon Chaney's struggle against the veteran actor had fought a valiant battle for more than a week, caused his death. He was considered on the way to recovery, but a hemorrhage proved fatal.

Chaney was 47 years old. Born on April 1, 1883, in Colorado Springs, Colo., the son of deaf and dumb parents, Chaney quit school before he had reached the fifth grade and became a tourist's guide on Pike's Peak.

His introduction to the theatre was as a property boy. Later he became a stage hand, and to his death he carried a card in a stage hands' organization. He got his first "break" as a song and dance man at a stage hands' benefit when he was 16 years old.

NATIONALISTS STRESSED**
BY DR. R. C. WALLACECo-operation, sympathy and under-
standing must be the keystones of the
relationships between those in Cana-
da who have the advantage of the
English tongue, and those who come
to settle here from countries which
are not of the English tongue, in the
opinion of Dr. R. C. Wallace, presi-
dent of Alberta University and chair-
man of the Board of Judges for Al-
berta, of the Community Progress
competitions for rural communities
of European origin, inaugurated by
the Canadian National Railways.Dr. Wallace, with his co-judges,
Mrs. R. B. Gunn and Dr. W. H. Fair-
field, of Lethbridge, have completed
their inspection for the province,
visiting the various Ukrainian, Ger-
man and Scandinavian settlements."What these settlers have brought
to us from other lands," said Dr.
Wallace, "has helped and is helping
to make Canadian life more colorful,
more full of the joy of life. We must
not forget that our British stock is
what it is because of the blending of
many stocks. In Canada we witness
the blending of many good stocks and
so, let us hold out the helping hand
to one to the other."Robert England, western manag-
er of colonization for the Canad-
ian National Railways, who accompanied
the judges, explained the objects of
the contest. He said: "These are
progress competitions. There are
many different views of progress. We
are not asking how many radios, or
cars, or pianos you have, we are not
even asking if you have palatial
farm homes. We do ask to what ex-
tent you have made use of the oppor-
tunities you have had for advance-
ment in education, public health,
agriculture, and in your arts and
handicraft."**BUFFALO HEAD****FOR LONDON CLUB**Enroute to London, where it will

What Is Right With Canada?

A moderate optimist, we are told, is one who sees both the good and the bad, the pleasing and the displeasing, the bright and the dark, the encouraging and the discouraging, but prefers to think and talk about the brighter and better things.

At the present time we have more than a sufficiency of pessimists, crasse-changeable representations of blue ruin gossip. We also have a few incorrigible optimists who shut their eyes and ears to the actual facts of any situation and cry "All is well."

What Canada and the world needs today are more moderate optimists, men and women who, looking at both sides of the picture, refuse to be depressed by the darker colors and shadows and find encouragement and great promise in the brighter colors and the rays of sunshine breaking through the clouds.

Major Yeats-Brown, an Englishman, is the type of moderate optimist whose number should be multiplied. As an offset to the many things that have been said in answer to the query: "What is Wrong with England?" he advances the question: "What is Right with England?" and proceeds to answer his own question most entertainingly in the London Spectator.

Would it not be advisable for us in this country to also reverse the usual question we hear so often asked these days, and, rather, make answer to the query: "What is Right with Canada?" We may well do so, because there are so many things that are right with this Dominion, so many more right things than there are wrong things, that we are doubly foolish to ignore them and dwell upon the smaller life.

Looking around Canada we can discover a multitude of good things, the very best things. We find, for example, one of the most healthy, robust people in the world, possessing an abounding vitality and charged with initiative and energy. And of all the blessings which can be bestowed upon a nation or individual, what other blessing, or group of blessings, surpasses that of the health of all things are possible, lacking it all the wealth of the world is valueless to bring joy and happiness into one's life.

Looking at other countries, we find many of them filled with hatreds, with strife uppermost in the minds of the people, their thoughts and energies devoted to preparation for possible warfare. In Canada, on the other hand, we have a land occupied by a peace-loving people with a positive and growing hatred of war, making no preparations for war, but devoting their thoughts and energies to the arts and advancements of peace. No other country in the world is so "right" on the subject of peace and disarmament as is Canada.

Grouped with health and a sane viewpoint of man's relations to man we can place the moral and intellectual outlook of a nation. Looking over our broad Dominion we find a deep-rooted moral fibre, strong and sturdier than in most lands, with an abiding respect for law and order which no other country can excel, and which far surpasses that entertained by the people of any other country in either North or South America. We find Canada a land of schools and universities, a land in the very front rank of all movements for social betterment, a land the very foundations of which are sound, strong and stable.

Generally speaking, too, Canadian institutions of all kinds, whatever their faults, are strong and sound, constituting a bulwark to defence of the people. A bank failure in Canada is a rare thing; our railways are progressive and efficient, fitting their programmes well into the life and needs of the Dominion. We are not—and never can be—immune from the vicissitudes and effects of world conditions and happenings, but, even so, we have it within ourselves, in our institutions and resources, to withstand the evil effects of world matters beyond our own direct control, and to rally from those bad effects more rapidly than any other land. At this present time, Canada, notwithstanding its difficulties and business depression, is infinitely better off and stronger than most countries, and is suffering from less unemployment, proportionate to its population, than the United States.

Let us, therefore, dwell a little more on "What is Right" and the effect of doing so will unquestionably be to lessen interest in the more depressing question "What is Wrong?" Isn't the search for right things most likely to expand and thus diminish keenness in the search for wrong things? And isn't it just possible that the volume of right things will grow and be properly recognized until presently the wrong things are forgotten, or at most given their proper place in the general scheme? Let us join the quest of the moderate optimist.

Western Orchards
G. F. Chipman, editor of the Country Guide, predicts that the near future will see orchards of standard eating apples in all parts of the Prairies, where wheat is now grown successfully.

Darrell: "Gee, I'm in an awful hole."
Bill: "What's the matter?"
Darrell: "I spelled 'professor' with two 'f's' and don't know which one to cross out."

An investigation of the average life-span of household furnishings shows that a rug lasts nine years, a living room chair usually survives 12 years, and a dining room table 15.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 30 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes

sweet, the pain departs. You are happy again in five minutes. Don't depend on crude methods. Employ the best way ever evolved in all the years of searching. That is Phillips' Milk of Magnesia. When Woodrow Wilson was prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

IRISH POET IN NEW YORK

George Russell, Irish poet, essayist and economist, has arrived in New York with what he believes is a system of agricultural co-operation that will bring economic relief to the farmer. The distinguished visitor, who is well known under the pen name of "AE," plans to visit every state in the union during his six months' visit.

To Study Canadian Methods

Seed Potatoes From Maritime Males III With American Growers
The humble spud which is produced in such quantities in the maritime provinces, has become almost a trade mark of Canada in some American markets, and it rose to real eminence during a visit of 160 members of the Pennsylvania Potato Growers Association to New Brunswick and Prince Edward Island. These two areas produce the finest seed potatoes on the continent, and the purpose of the visit by the delegation was to study the method under which these superior spuds are raised. The provincial departments of agriculture feted the visitors and showed them all that was to be seen.

CONSTIPATED CHILDREN

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative, are pleasant to take and can be given to the newborn babe with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Refreshing Treat

Church Supper Gives People Opportunity For Sociability
The reason for the church supper and the festival is here. These delightful events crowd the late summer and early autumn evenings. In this day and generation of so-called high-speed existence when we seem to depend so largely on machine and enjoyment it is indeed a refreshing treat to attend the rural church supper or festival. At these events there is to be found wholesome and a plenty of food and recreation for greater values than the price paid for the ticket. These affairs are conducted for profit of course, but is a broader profit than monetary gain alone.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powder cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-torn infant.

Only a Memory

American Farmer Sees His Holdings Divide Under Successive Administrations
Senator Thaddeus E. Caraway, of Arkansas, in a speech before the state Democratic convention, described himself as an "ex-farmer."
"When Woodrow Wilson was president, I owned a farm," he said. "After Harding was in office, I had only an equity. Then came Coolidge and all that was left of my farm was an echo. Now that we have an era of Hoover prosperity, my farm holdings consist of a memory."

Temperature tests made in the region of a forest showed that the draft and heat from the flames caused a difference of ten degrees in temperature at some distance ahead of the advancing fire.

21 VAPORUB
OVER 12 MILLION JARS USED YEARLY

Impatient For Disarmament

League Of Nations Is Called Upon To

A vehement and sometimes impatient demonstration, urging the hastening of the League of Nations' disarmament programme and early calling of a general conference for reduction and limitation of armaments, was witnessed in the League assembly's disarmament committee at Geneva recently.

From this rally there arose a promise of J. J. London, chairman of the preparatory disarmament committee, that the commission would meet November 3 and fervently seek to finish its task of clearing the way completely for a congress of all nations to construct a scheme of general disarmament. Voices from countries that were neutral during the World War, joined those from states which were disarmed by the war in the demand that the League should get along quickly with its long delayed purpose of inducing nations to lay aside their fighting.

German Property Sequestered

Conversations Between Officials Of Canadian and German Governments To Be Held

German property seized in Canada during the war will be the subject of conversations between officials of the German government and those of the Canadian government. Hon. C. H. Cahan, secretary of state, accompanied by Thomas Mulvey, under-secretary of state, Mr. Cahan will sail from New York. Discussions will take place in Berlin.

Of the large amount of property of German nationals sequestered by the Canadian government during the war, some \$600,000 remains unliquidated. In January, Canada agreed that in liquidating property consists chiefly of land and securities that it has been found difficult to market. There still will remain in the hands of the Dominion government more than enough to settle all claims by Canadian civilians, for reparations as a result of enemy action in war-time.

Fire Kept Burning

Century and Half

North Carolina Family Has Not Let It Go Out

Along about the time the Declaration of Independence was being signed a stalwart son of Saxony came to the mountains of Saluda, N.C., to build a cabin for his family. A fire kindled on the newly-finished hearth has never gone out.

William Morris, who doesn't know how old he is, lives alone in the warped log hut, and tends the fire his grandfather started more than 150 years ago. He is the last man of his family.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

An Artist Without Arms
Henry Wiegman, a student artist of Cleveo, a suburb of Chicago, was born without arms. But he is one of the promising students of an art school here. Wiegman holds the brush between his teeth and manipulates it with his tongue. He intends to make his living by commercial illustration or in his own gift shop. His ambition to paint dates from the time he learned to write by the same method. He is twenty-three now.

Athletes recommend Minard's Liniment.

Conjuring Creek
Conjuring Creek, the curious name of a northern Saskatchewan river, was first suggested by that of Wile and Lake from which it flows. The Cree name is "Fawgomow."

Britain is to have a library of historic naval photographs.

Singing is a most valuable exercise for the lungs.

English Being Taught In German Schools

Classes Are Popular and Students Show Great Interest

Every boy and girl in Germany is being taught English, according to Prof. Max Zimpe, author of English and German textbooks, who was in New York recently.

"Our students are tremendously interested in anything about America," he explained. "Every language teacher reports that the classes teaching English are very popular. We teach the same pronunciation heard in the South of England."

The school system in Germany is quite different to the United States, the visiting professor says. Over there the aim is to have an mastery of learning. They do not desire to have every boy and girl graduate, but rather to make the work so difficult that only the brightest pupils can finish their high school course. Children who are backward in school are given a sound elementary training and then the government apprentices them to a good trade for four years.

Socialist—After all, what is the difference between the rich man and the poor man?

Bystander—The rich man has acute laryngitis and the poor man has a cold.

We read of a man who pushed a collector of income tax out of a third-floor window. It is not thought he meant any harm. — Punch.

An efficacious household remedy—Douglas' Egyptian Liniment. Brings immediate relief to lame back and muscular rheumatism. Also relieves inflammation, burns, sores, corns and warts.

Tommy (arriving at the country cottage) — Where's the bathroom, mother?

Mother—There's no bathroom here, Tommy!

Tommy—Good. We're going to have a real holiday, then.

HUNTER-MARTIN & CO., REGINA, SASK.

SAYS CANADA IS NOW EMERGING FROM DEPRESSION

Winnipeg, Man.,—Yesterday, toward their, viewing the future with stern-faced confidence, Canada already moving out of a depression period, was advised to pay even more attention to business by General Sir Arthur Currie, president of McGill University, and wartime commander of the Canadian expeditionary force overseas. In an address to members of the Winnipeg young men's board of trade, he pronounced himself more proud and more confident of Canada than ever before, after a searching inspection of the west, and he thought the Dominion was on the way to cutting extravagance.

"I know there is too much luxury, too much extravagance," asserted Sir Arthur, "but hard times are curbing that and so out of an evil, a blessing flows. I know we are not thirty enough, but I believe we are becoming more serious."

Passing, as she is, through a "somewhat uncertain and somewhat anxious time," the Dominion is without any sign of walling, Sir Arthur observed. "We no longer hear whispers of death, no longer hear of the recession of the Maritime provinces, no longer hear that the Prairie provinces will pass to the United States, no longer hear that we are passing rapidly to our doom."

He added: "I am glad that this is so. I can't bear to hear so many announcements or denunciations that we are an enervated or a played-out race."

Sir Arthur spoke enthusiastically of the Peace River country, "the great kingdom of the Peace," he termed the extensive Alberta agricultural area.

For the Blind

Free Radio Licenses Issued By Government To Blind Radio Owners

Ottawa, Ont.—Radio licenses issued free by the Canadian Government to blind radio owners totalled 624 for the period of the fiscal year 1930-31, to date, compared with 589 for the entire fiscal year 1929-30, according to official figures issued recently.

The total number of radio licenses issued for the first five months of the current fiscal year was 349,676, which also indicates a steady increase in the number of radios operated in the Dominion.

Find White Seals

American Expedition Discovers Specimen Of Mexican Coast

San Diego, Cal.—The existence of white seals, heretofore regarded as mythical, was reported here by the San Diego Zoological Society's expedition after its return from Guadalupe Island, off the Mexican Coast.

Members of the party reported that white seals had been found on the inaccessible rocks of an outer islet, where landing was impossible. They were unable to obtain a specimen.

Vancouver Wheat Exports

Shipments To Date Double The Amount Of Record Year

Vancouver, B.C.—Wheat exported from Vancouver during the current crop year to date totalled 8,283,378 bushels, double the amount shipped out during the same period of the record crop year of 1928-29 through Vancouver, when total shipments reached 100,000,000 bushels. Last year at this time only 2,679,378 bushels had been shipped.

Cattle Exports To Britain

Montreal, Que.—Canada's cattle export trade to Great Britain amounted to 1,660 head through the port of Montreal to date this year, with the recent shipment of 377 head which was the sixth shipment for the season. No cattle were sent to Great Britain last year.

Japan Taking Census

Tokyo, Japan.—Japan is taking that of her mainland. A quarter of a million census takers have begun collecting data in the empire's second decennial census. Preliminary estimates stated the census would show the population of the whole empire at about 89,000,000.

R-101 Makes Trial Trip

Cardington, Eng.—The re-constructed dirigible R-101, which is the largest airship in the world since it recently was lengthened, has made a short trial trip preparatory to a voyage to India.

W. N. U.—1938

Stresses Empire's Greatness

Hon. R. B. Bennett Addresses British Gathering In London

London, England.—With a brilliant gathering in attendance, the delegates to the Imperial Conference were entertained at the Guildhall by the Royal Empire Society and other Imperial bodies.

"The diversity of the peoples of our Empire, their talents and their resources, lies the real secret of the Empire's greatness," declared Hon. R. B. Bennett, prime minister of Canada, in his address.

The speech of the Canadian prime minister was greeted several times by cheers.

"Before us," said Mr. Bennett, "lies the task of Empire consolidation and with that task we meet in the heart of this great city, where trade, commerce, finance, and other great affairs engage the attention, to think of our Empire as an economic unit."

Mr. Bennett was cheered when he declared the nations of the Empire were not yet bankrupt in statesmanship. Men and women occupying a quarter of the land surface of the globe and comprising a quarter of its population, were still capable, by guidance and leadership, of achieving in the future what they had not already achieved, namely, the economic solidarity of the Empire which was as capable of achievement as the development of their constitutional liberties had been.

H.R.H. Prince Arthur of Connaught, former governor-general of South Africa, presided at the banquet.

Canada's Fire Loss Heavy

Total Of \$47,000,000 Shown In Report For Last Year

Ottawa, Ont.—The fact that Canada's fire loss last year—\$47,000,000—represented almost two and one-half times the amount the Dominion Government set aside to relieve unemployment, was called up by Premier John Diefenbaker, to improve on delegates to the Dominion Fire Prevention Association convention the need for greater effort.

Prime Minister R. B. Bennett was named honorary member. W. E. Shaughy, Toronto, is the new president.

Among the many resolutions given approval was one recommending that institutions receiving financial assistance from the federal government should be compelled to provide adequate fire safeguards.

Hope Is Fulfilled

First C.P.R. Train Reaches Historic Town Of Battleford

Battleford, Sask.—Another page in the history of Battleford was written when the first Canadian Pacific railway train pulled into the depot at 12:30 on the afternoon of Sept. 30.

To the citizens who crowded the station platform, it was a fulfillment of a cherished hope, which had its birth in 1875, when the first projection was made which was to carry the steel from Winnipeg, Fort Livingstone, Battleford, through the Yellow Head Pass to New Westminster.

In 1881 it was decided that the route should be diverted to serve the southern part of the province, and for nearly half a century citizens of this historic town have labored for the achievement marked recently.

Have Extensive Program

Railways To Proceed With Construction And Improvement Work

Ottawa, Ont.—Official announcement has been made by Senator Robertson, Minister of Labor, that the Canadian National and Canadian Pacific railways would proceed immediately with a \$21,000,000 construction and improvement work. Employment for 10,500 men would thereby be provided for a year, and 2,000 tons of horses would be given work for a considerable part of the time, especially for grading purposes. The employment of teams will help the farmers in many districts.

To Touch Natives

Leningrad, Russia.—Geologists, pedagogues and other scientists have gone to northernmost Siberia where 5,000 nomads live in one of the remotest corners of the world. They expect to teach the natives how to fish better, to start reindeer farms, a cannery, meat cannery and a plant to make iodine from seaweed.

Order-In-Council Grants Loan

Winnipeg, Man.—Order-in-council granting a loan of \$50,000 to the Manitoba Cattle Loan Association was passed by Manitoba's cabinet today. The association secured the money at five per cent. and will charge its members seven per cent. for advances secured by lien notes on cattle purchased.

GOVT PROGRAM ENLARGED FOR RELIEF PURPOSES

Ottawa, Ont.—Details of the Federal Government's campaign to relieve unemployment in Canada were outlined recently by Senator Gideon Robertson, Minister of Labor. Between \$80,000,000 and \$90,000,000 will be "put to work" to better distress conditions and provide work for Canadians, he said. This included the \$20,000,000 supplied by Parliament at the last session, the remainder being contributions from the provinces and the municipalities, and the \$21,000,000 program of construction and improvement work to be undertaken by the Canadian National and the Canadian Pacific railways.

The Federal Government's scheme was not limited to setting a tide money for construction in co-operation with the provinces and municipalities, the Minister of Labor declared. A sum of \$4,000,000 would be set aside for "direct relief." The grant separation fund of the board of railway commissioners would be augmented by a total of \$1,000,000 for the benefit of any subway work undertaken. The government would contribute on a 50-50 basis with the provinces in building a trans-Canada highway from Sydney to Vancouver, and was prepared to pay 40 per cent. of the cost of general provincial highway work this winter.

There will be other angles to the government's relief program, Senator Robertson emphasized. Tariff changes made at the last session would afford immense stimulus to Canadian industry, he believed, and would result in the creation of more jobs. Restrictions had been placed on immigration for the benefit of Canadian labor. It was the minister's belief that the expenditure of from \$50,000,000 to \$90,000,000 throughout Canada in relief work by one kind or another, would reach every type of laborer, clerk or artisan.

The program of construction and improvements to be undertaken by the two large railways, which has been formally approved by the cabinet, would result in the employment of 10,500 men for a year, Senator Robertson said. In addition, 2,000 teams of horses would be needed for grading purposes and this would be of benefit to great numbers of farmers. The whole program, he stated, called for the expenditure of \$21,000,000 with work to start immediately. Orders would be placed at once for rails, Nova Scotia coal and other necessary supplies. Because these orders were not usually given at this time of the year, it would be necessary for the railways to raise the money, Senator Robertson explained. Because of this, the government had decided to set aside \$15,000,000 of the \$20,000,000 fund to guarantee interest and carrying charges to the railways.

Found Water Too Cold

Dover, England.—Miss Mercedes Gleitz, British woman swimmer, failed in a new attempt to swim the English Channel. Entering the water she stayed in only about four hours, abandoned her efforts because of the intense cold.

ROBERT BUCK, TO ATTEMPT TO LOWER RECORD

Robert Buck, 16-year-old Elizabeth, N.J., had made his first flight eight months ago, will take off soon in his Pittman biplane in an attempt to lower the junior coast-to-coast flight record. He is a friend of Eddie Schneider, 18, present holder of the transcontinental mark.

MINISTER OF AGRICULTURE

Hon. Robert Weir, Minister of Agriculture in the Federal Cabinet.

Staff Reduced When Resources Handed Over

Accounts Can Be Handled By Smaller Number Of Clerks

Edmonton, Alberta.—No ceremony of any kind marked the formal transfer of Alberta's natural resources. Twenty-eight officials, clerks and stenographers in the Dominion Lands office here, found themselves out of employment, as transfer of the resources was made.

Regina, Sask.—Effective reduction of staff to permit financial savings by the administration of the natural resources is forecast by Premier J. T. M. Anderson in a statement issued as the provincial government took over the natural resources of Saskatchewan.

The transfer of the natural resources involves the transfer of about 20,000 accounts for grazing, leases, mining claims, timber permits and contracts, land sales and contracts and school land contracts.

Won Citizenship After Long Court Battle

But Woman Refused To Take Usual U.S. Oath For Naturalization

Lincoln, O.—Mrs. Carl Landis, Philadelphia, who refused to take oath to kill in defense of the United States, is now a citizen after a court battle lasting a year and a half. She took the oath of allegiance, still reserving her opposition to bearing arms; she would serve as a nurse and shed her blood if necessary in time of war.

Common Pleas Judge A. M. Rogers admitted the reservation and granted citizenship over the protest of the assistant supervisor of naturalization.

Mrs. Landis came from Alsace-Lorraine in 1910, and was naturalized since she began her fight for citizenship.

Eleven Burned In Explosion

Valeja, Guanajuato, Mexico.—Eleven persons were badly burned as 5,000 skyrocket exploded in San Miguel cathedral during the celebration of the San Miguel Saint's Day. The fireworks, which had been stored in the church for the celebration, were ignited by a skyrocket which exploded.

Maritime Ports Are Important To Canada

Only Avenues Open On Our Atlantic Coast At Certain Seasons

Halifax, N.S.—Emphasizing the important position the ports of the Maritime provinces hold in relation to the Dominion at large, Sir Henry Thornton, president of the Canadian National Railway, reminded his hearers at a luncheon given in his honor here, that, at certain seasons of the year the harbors of the Maritime provinces are the only avenues of ingress and egress on the Canadian Atlantic coast.

To contemplate any separation of the Maritimes from the rest of Canada, said Sir Henry, "would be to contemplate economic suicide." The position of the Maritimes economically, he added, was the best in the Dominion today. He pledged the fullest co-operation and support of the C.N.R. in development of the port and province.

Making Inspection Trip

Hon. R. J. Manion To Look Over Bay Railway And Terminals

Ottawa, Ont.—On his first inspection trip, Hon. R. J. Manion, Minister of Railways and Canals, departed from the capital to make a personal survey of the Hudson Bay Railway and the terminals at Churchill. Mr. Manion will be absent from Ottawa for a fortnight.

Accompanying Mr. Manion were his deputy, D. I. Smart, Col. A. E. Dubuc, chief engineer of the department and Charles Haddow, assistant high commissioner for Great Britain.

ARE PEDGED TO THE CAUSE OF EMPIRE TRADE

London, England.—The self-governing nations of the British Commonwealth pledged themselves to the cause of Empire trade. Throughout the speeches which marked the opening proceedings of the Imperial Conference the over-recurring note was the desire to co-operate; to meet the common problem with common action.

"I should like to make this conference another turning-point in the wonderful history of our people," exclaimed Prime Minister Ramsay MacDonald in a radio broadcast. "Our weakness," he continued, "is in our psychology far more than in our skill, our money or our resources. It is a renewal of will that we need."

"What we have to consider," said the British Prime Minister, in opening the conference, "is, I would suggest, what practical means we can devise for helping one another, and thereby helping us all, always remembering the different world contacts and internal industrial circumstances to which we have to accommodate ourselves."

The conference, for the first time, met in the great Locarno room of the Foreign Office.

"At this table," said Mr. Ramsay MacDonald, "are the shades of many great men and of many great events which are enshrined in a history common to all. They do not receive from all of us the same welcome or the same homage. But there are, dignified by time, their aspects and their results smoothed and mellowed by the passing of the years and by the progression of the pageantry of history which is now our inheritance for good or for ill."

"We are still in the flesh, with fate or destiny still unwritten regarding we who have to live and plan for the future. We face a world still unsettled; beyond us is a prospect of intangible fears, set purposes, unhappy suspicions, firm convictions, numbing experiences and yet delicate idealism, and it is our lot to try and find a sure way amidst the confusions—a way which those who will sit here after us will gladly pursue to the goals which are to us but promises. If it be our good fortune to find that way, it is only because we have the confidence in each other, because we are inspired in all our deliberations by the spirit of free association, and guided by a will to co-operate not only in action but in our own difficulties but in giving an example of autonomy within unity to the rest of the world."

And the sentiments voiced by Mr. Ramsay MacDonald were echoed in the subsequent speeches of the Dominion prime ministers.

"My colleagues and I represent the people of Canada," Mr. Bennett declared. "We come to this conference only with a message of affection and goodwill, but in the strong belief that, by the concerted action of the whole, we can advance the interests of all sections of the Empire."

PROSPECTS FOR GREATER TRADE WITH ANTIPODES

London, England.—The Imperial Conference of the British nations has got down to work and the first business was concerned with constitutional questions, which arose from the Balfour report of the 1926 Imperial Conference dealing with equality of status as between Dominions and the mother country.

In the background of the constitutional discussion was the speech made by Hon. Patrick McGilligan, Irish minister of external affairs. "For us," said Mr. McGilligan, "the recognition of our position as a free sovereign state comes before all other consideration."

But it was not in the council room alone that progress was made. Canada and Australia, represented by Hon. H. H. Stevens, Canadian Minister of Trade and Commerce, and by Prime Minister James Scullin of Australia, and Hon. P. L. Maloney, Australian Minister of Markets, respectively, opened conversations with the greater development of mutual trade their goal.

It was found that both countries can buy from each other many things they now buy outside the Empire. Australia had dried fruits and oranges; pineapples and wool to offer Canada, which at present buys pineapples from the Hawaiian Islands, and wool on the New York market. And Australia, it was pointed out, buys from foreign sources a number of products she could just as well take from Canada.

Hon. Mr. Stevens also had some informal conversations with the New Zealand representatives in regard to trade with New Zealand, with particular attention being paid to the higher Canadian tariff on butter, which is to be eight cents instead of four cents a pound.

Scholarships Awarded To Canadian Nurses

Will Take Post Graduate Course In Public Health Nursing

Ottawa, Ont.—Following a policy in the organization since 1921, during which time 144 scholarships have been granted, the Victorian Order of Nurses for Canada has again given scholarships to enable well qualified nurses to take a post graduate course in public health nursing at Canadian universities.

This year's awards have been made to Miss Hazel Latimer and Miss Edith Stevenson, both of Ottawa; Miss Elizabeth Edwards, Kingston, Ont.; Miss Mary Henderson, Niagara Falls, Ont.; Miss Margaret Ferguson, Miss Jean Watt, both of London, Ont.; Miss Annie R. Smith, of Calgary, and Miss Jacqueline Noel, of Montreal.

Pays Extreme Penalty

Gordon Northcott Hanged For Chicken Ranch Murders

San Quentin, Cal.—Gordon Stewart Northcott, 23, chicken rancher of Wineville, Cal., was hanged here for the murder of three young boys after he had left a written confession of his crime and faked a suicide attempt.

Northcott was led blindfolded to the gallows and collapsed as he stumbled up the 13 steps to the scaffold platform. Guards held him until the trap was sprung at 10:03 a.m. just as Rev. Henry Newberg, Los Angeles evangelist, was intoning verses of consolation from the 14th chapter of St. John.

Develop Wheat Markets

Federal Government Approimates Sum Of Money For Practical Demonstration

Ottawa, Ont.—In an effort to develop the markets for Canadian wheat, the Dominion Government has appropriated a sum of money to be used in practical demonstration of the use of Canadian flour for baking purposes.

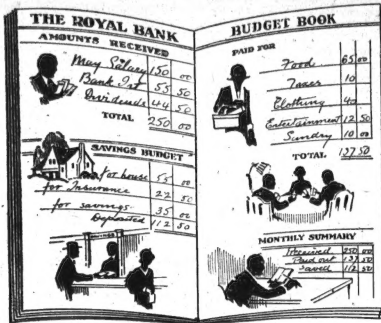

These demonstrations will take place first at different points in the United Kingdom, subsequently expanded to European countries.

Pilot's Death "Misadventure"

Fort William, Ont.—"Misadventure" while teaching advanced flying was given as reason by coroner's jury for the death of Capt. James A. Dickie, Bishop's Field Flying Club instructor, who was killed when his plane crashed near here, September 6. Miss Maudie Swain, passenger in Dickie's Moth plane, when it met disaster, was unable to testify, suffering from lapse of memory, she said she was unable to remember anything of the fatal flight.

Local and General Items

Time, wind, women and fortune are forever changing.

Herdman McLeod has returned to Coleman from Mercoal.

Shooting season for Hungarian partridge opened on October 1st.

What does John Garson look like in kilts? Come and see at the United church next Tuesday.

Will all interested in Manual Training classes get in touch with Rev. J. W. Smith as soon as possible.

Upon our return after six weeks in Eastern Canada, we found the fish in Alberta streams had forgotten how to bite.

The members of Blairmore Lodge No. 68, I.O.O.F., will hold a grand Halloween dance in the Moose Hall on the night of Friday, October 31st.

Burns & Co. have decided to close their Coleman store, which we understand has been taken over by Mrs. Steve Leosky.

Remember the whist drive and dance to be held in the Oddfellows' hall at Bellevue tomorrow night, under the auspices of Bellecrest Chapter, O.E.S.

Constituting part of the unemployment programme of the new federal Conservative government (?) the main floor of the Cosmopolitan hotel is receiving a coat of shellac and wax.

J. M. Pringle, president of the Canada-West Indies Fruit Company, expresses the belief that the banana tarantula sting is not deadly and would not cause the death of any normal person.

On Thursday next, October 16th, Blairmore will be host to the annual sessions of the Masonic lodges of district number eight. Visitors are expected from as far east as Cardston, and as far as Fernie on the west.

Capt. J. W. Gresham, local district magistrate, has been awarded the long service medal of the Colonial Auxiliary forces. He has thirty-six years of military service to his credit and is at present a captain with the Alberta Mounted Rifles.

The Catholic mission being held here this week attracts large audiences, both in the mornings at St. Anne's church and in the evenings at the opera house. Rev. Father Carroll is an able exponent of Catholicism and his messages are interesting.

A real treat is in store for you if you will attend the "Night in Bonnie Scotland w/ John Garden in Kilts" at the United Church on Tuesday next. The programme is arranged by the girls of the Philomath Group, the proceeds going to the church's self-supporting fund.

J. W. McDonald, K.C., denies that he is going to resign as Provincial Liberal leader. Rather, he suggests that the time has come for aggressive leadership within the party, and he intends to do the best he can to supply it. There appears to be little doubt that Western Liberals will have to make themselves heard within the next few years if this part of Canada is to be given the right kind of treatment for its proper development.—Lethbridge Herald.

A good congregation was present last Sunday night in the United church to hear the Rev. Thos. Powell, D.D. His message was gathered around the appearance of Jesus to Thomas who had doubted that Jesus was risen, saying, "Except I shall see in his hands the print of the nails, I will not believe." To which Jesus replied "Reach hither thy finger and behold my hands." Dr. Powell took occasion to remind his hearers that our hands bear eloquent testimony of what we are and what we do.

Even a four-flusher may have an eight-cylinder ear.

Every man has his price, and every woman her figure.

A dance will be held in the school house at Burns tomorrow night.

Dr. R. K. Lillie has been called to Creston, where his father is again dangerously ill.

In a fight with Curly Archibald at Wainwright, Kid Holland received the decision on a foul.

The initiatory degree was conferred at the regular meeting of the Blairmore Lodge of Moose on Monday night.

Mr. and Mrs. W. J. Stokes, accompanied by Mrs. Ross and Mrs. Tempers, were motor visitors from Calgary over the week end.

The marriage of Thomas Beck, of Fernie, to Miss Elizabeth Black, of Fergus, Ontario, took place at Knox United church, Calgary, on September 27th.

Bear in mind the Halloween dance to be held in the Union hall at Hillcrest on the night of Monday, October 27th, under auspices of Mizpah Temple, Pythian Sisters.

H. D. Gerry will conduct an auction sale of cattle, horses, farm implements and household effects on the old Iredale ranch, south-west of Cowley, on Friday of next week. See bills and ad.

Mrs. James Leigh and her daughter Verdon will leave Cowley shortly to take up residence at Calgary, where Miss Verdon will attend St. Hilda's Girls' College and also take advanced studies in music.

Glaring head lights were responsible for a car, driven by W. S. Beattie, of Lethbridge, going into a ditch off the highway near Kipp on Sunday evening last. Mr. and Mrs. Beattie received quite a shaking up, while a lady friend passenger sustained a cut over the head.

The oil company of which A. M. Morrison, of Coleman, is president, has been fortunate. Inland Petroleum Limited is financed by several business men of the Crows' Nest Pass. Two wells have been drilled in Red Coulee district, and both are producers. Fortune certainly favored this group of men who took a chance and doubtless they will later reap the reward.—Coleman Journal.

A Swede, working on one of the farms in this district, visited a boot-legger's "joint" in a town less than 100 miles from Forestburg, one day during the wet spurt last week, and asked for a drink of "good old squirrel whiskey." According to the story given The Herald, the bar tender said there was no squirrel whiskey in the house, but that he had some Old Crow. "Oh, yodus priest," said the cautious Swede. "I don't want to fly. I just want to hop around a little."—Forestburg Herald.

ANNUAL BAZAAR. Hillcrest United Church Ladies' Aid. November 8th.

HALLOWE'EN DANCE. Auspices of I.O.O.F. Lodge, Moose Hall, October 31st.

THE C.W.L. ANNUAL BAZAAR, Opera House, Nov. 15th. Dancing 9 to 12. Watch for this annual event.

BELLEVUE C.W.L. BAZAAR will be held on November the 8th. Keep the date open.

THE PYTHIAN SISTERS will hold their ANNUAL BAZAAR in the Lodge Hall on November 22nd.

BAY STALLION, about 1100 lbs, two white hind feet, white strip on face, no visible brand; came with herd from near Hillcrest. Owner can have same by applying to A. Wakaluk, Burns, and paying for feed.
